

„MY LAND SHOWS, WHO I AM“!  
Manuel Ploder

The **PLODER - ROSENBERG** winery is located here in the Vulkanland Steiermark. Maria and Alfred Ploder, together with their son Manuel & a dedicated team, have established their winery as a biodynamic masterpiece. A triumvirate of the wine lines offer the best options and peel out the unique terroir. The cultivated noble grape varieties are also increasingly home to **PIWI** grape varieties (fungus-resistant grape varieties) in their lively wine gardens and their precious wine collection. Due to their wide wine collection, they are internationally part of the wine cuvée avant-garde.

„ONLY WHAT GET ´S TIME, CAN BECOME QUALITY!“  
Alfred Ploder

The individual wines are given plenty of room for self-development; accordingly, in addition to **KLASSIK** wines, there are also layer wines under the **LINEA** brand, as well as selected essences from the **AMPHORE**, which focus less on the variety and more on the origin and the metamorphosis of the vinification.

Of course, the origin of the wines are responsible for the maceration time (up to 12 months), natural sedimentation, spontaneous fermentation, free of thermal interventions, spontaneous biological acid degradation, long contact with the "mother" (whole yeast), refusal of all artificial "additives" ", Respectful handling of every" individual wine ", accompanying interventions and plenty of time for tank, barrel, amphora & bottle maturation.

"ENERGY FROM HEAVEN & EARTH FOR US PEOPLE!"  
Maria Ploder

Applied permaculture systems contribute to the independent supply of the most valuable foods. Vegetable fermentations enrich the refinement, use and curing. Other luminous points in their ventures are fellow human beings, as well as their various animals, which represent a valuable anchor for the successful synergy of an individual farm organism.

„WHEN YOU MAKE A DECISION, THE UNIVERSE CONSPIRES TO MAKE IT HAPPEN!“  
Alfred Ploder

Personal responsibility for daily action & deeds, standing up for Mother Earth & Father Sun, as well as joyful decisions regarding the favor of the "whole" are perceived. Various seminars, training courses, sharpening of senses and sensitization find their place in the appealing winehouse.

More and more wine connoisseurs are longing for the added value of enjoyment and digestibility that natural wines offer. Ploder - Rosenberg strives for holistic biodynamic agriculture in such a way that it corresponds to a world worth living in.

„CONTAIN TRACKS OF LIFE!“  
Manuel Ploder
